

Lexington Manufacturing

20-MINUTE FR STILE AND RAIL COMPONENT SOLUTION

20-Minute
Fire Rating

Easy to
Machine

All Wood
Solution

1.75 Thick
Finished Doors

Consistent and dimensionally stable, all-wood solution for 20-minute fire rated stile and rail doors for commercial or residential applications.

Straight & Strong

Designed for single swing construction, our dimensionally stable components reduces processing time and labor needed per door.

Versatile Construction

Components can be used in both doweled or non-doweled constructions for added versatility.

Flat & Raised Panels

Solution allows for both flat and raised panels as well as single or multiple panel construction.
