

# FIRE RATED COMPONENTS

Lexington's fire-rated components bring dependable stability and ease to a traditionally complex process. Built to be consistent, dimensionally stable, and ready to machine, our stile, rail, and core solutions help streamline production while supporting a variety of fire-rated door constructions. Backed by decades of engineering expertise, we make it easier to build reliable, high-performing doors with efficiency and confidence.

## PRODUCT OFFERINGS

- Door Stiles
- Door Rails
- Door Core
- Light Kit Assemblies
- Banded Assemblies

FIRE RATING	AVAILABLE DOOR TYPES Standard 1.75" Flush Door Configuration (Spec Direct Listing)	MAX SIZE RANGE Available in Neutral and Positive Pressure (Max Size Shown)
Lexington Response 20-Minute Flush Fire Door (#25207)	<ul style="list-style-type: none"> <li>• Single Swing</li> <li>• Pairs Conventional</li> <li>• Pairs Double Egress</li> </ul>	Single Swing: 4/0-9/0 Pairs Conventional: 8/0-9/0 Pairs Double Egress: 8/0-9/0

AVAILABLE IN BOTH COMPONENT AND BANDED ASSEMBLIES

## WHY LEXINGTON?

At Lexington, we're your go-to problem solvers for component manufacturing, regardless of the substrate or composite material. We offer an unparalleled array of options, allowing us to provide solutions that cater to the entire marketplace. Fire doors are known for their complexity and cost, but with Lexington, we simplify the process. Our approach allows you to concentrate on your core competencies while elevating your efficiency and profitability.
